1. 17/4, r=0

扰动观测伤真信果

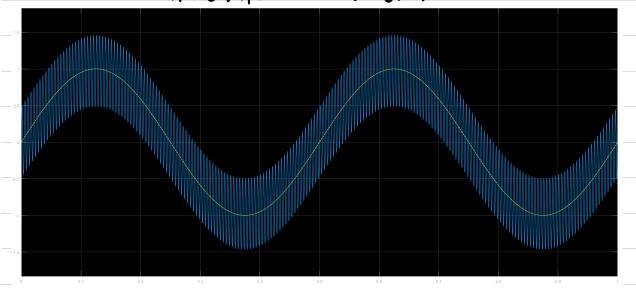

於鄉出(有狀动來啊)

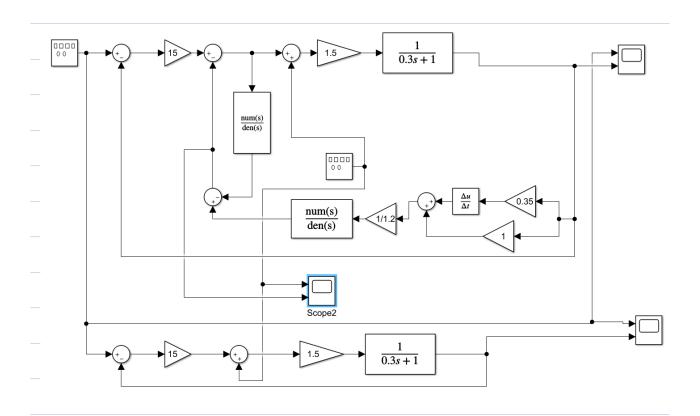

HW-2 190410102 自动似闭丘 方充

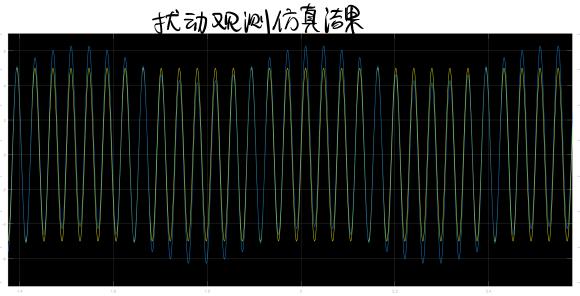

和允许的出(无扰动双NI)

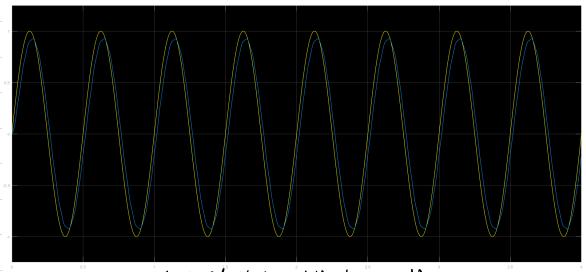

17/15, r=1

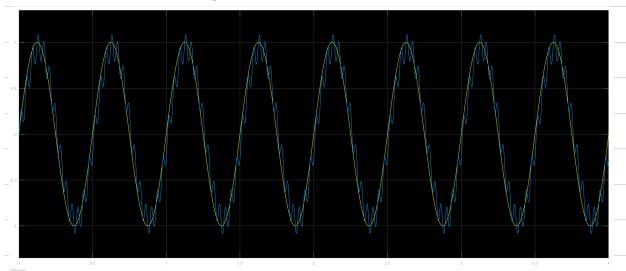

HW-2 190410102 自动似闭王 方花

於输出(有扰动2RMI)

彩流输出(无扰动双侧)

HW-2 190410102 自动似油 方充

$$S_{G}^{T} = \frac{d \ln \frac{kG}{itkG}}{d \ln G} = \frac{itkG}{kG} \cdot \frac{k}{(itkG)^{2}} = \frac{1}{itGk}$$

$$S_{G}^{T} = \frac{d \ln \frac{kG}{1 + kGH}}{d \ln G} = \frac{1 + kGH}{1 + kGH} = \frac{1}{1 + kGH}$$

$$= \frac{1}{1 + kGH}$$

$$= \frac{1}{1 + kGH}$$

$$= \frac{1}{1 + kGH}$$

$$S_{G}^{T} = \frac{d \ln \frac{kG}{1 + kGH}}{d \ln H} = \frac{1 + kGH}{1 + kGH} = \frac{-kG^{2}}{1 + kGH} = \frac{-kGH}{1 + kGH}$$
